

QUILTING DESIGN REFERENCE CATALOGUE

QuiltPath collections and individually purchased digital designs

Bluffs & Bobbin, LLC

Hokah, Minnesota | Longarm Quilting by Appointment

Updated September 2026

Catalog Key & Collection Sources

Internal printable reference for locating, identifying, and discussing owned quilting designs.

Section	Source / Designer	File Reference	Use
Angela Clark	APQS / QuiltPath Collection dated 5/5/2025	Filenames begin with “ac”	Custom motifs, blocks, borders, sashings, and specialty elements
Jessica Schick	APQS / QuiltPath	Filenames generally begin with “jspanto”	Custom motifs, borders, feathers, blocks, and specialty elements
Continuous Line	APQS / QuiltPath	Individual .gpf filenames shown beneath each design	Allover and continuous-line candidates; final scale and suitability are confirmed per quilt
Purchased E2E	My Creative Stitches, OESD / Totally Quilted, and Urban Elementz	Product/file reference is listed with each design	Individually purchased edge-to-edge patterns

How this catalog is organized

The first seven pages preserve the original visual browsing order. Angela Clark and Jessica Schick pages remain a separate custom-quilting reference so borders, corners, blocks, and motifs are not mistaken for full edge-to-edge patterns.

Use the alphabetical quick-reference index on pages 8-11. Detailed stitch-path previews begin on page 12. Match the permanent design number or exact studio filename, then use the detailed page for scale and layout comparison.

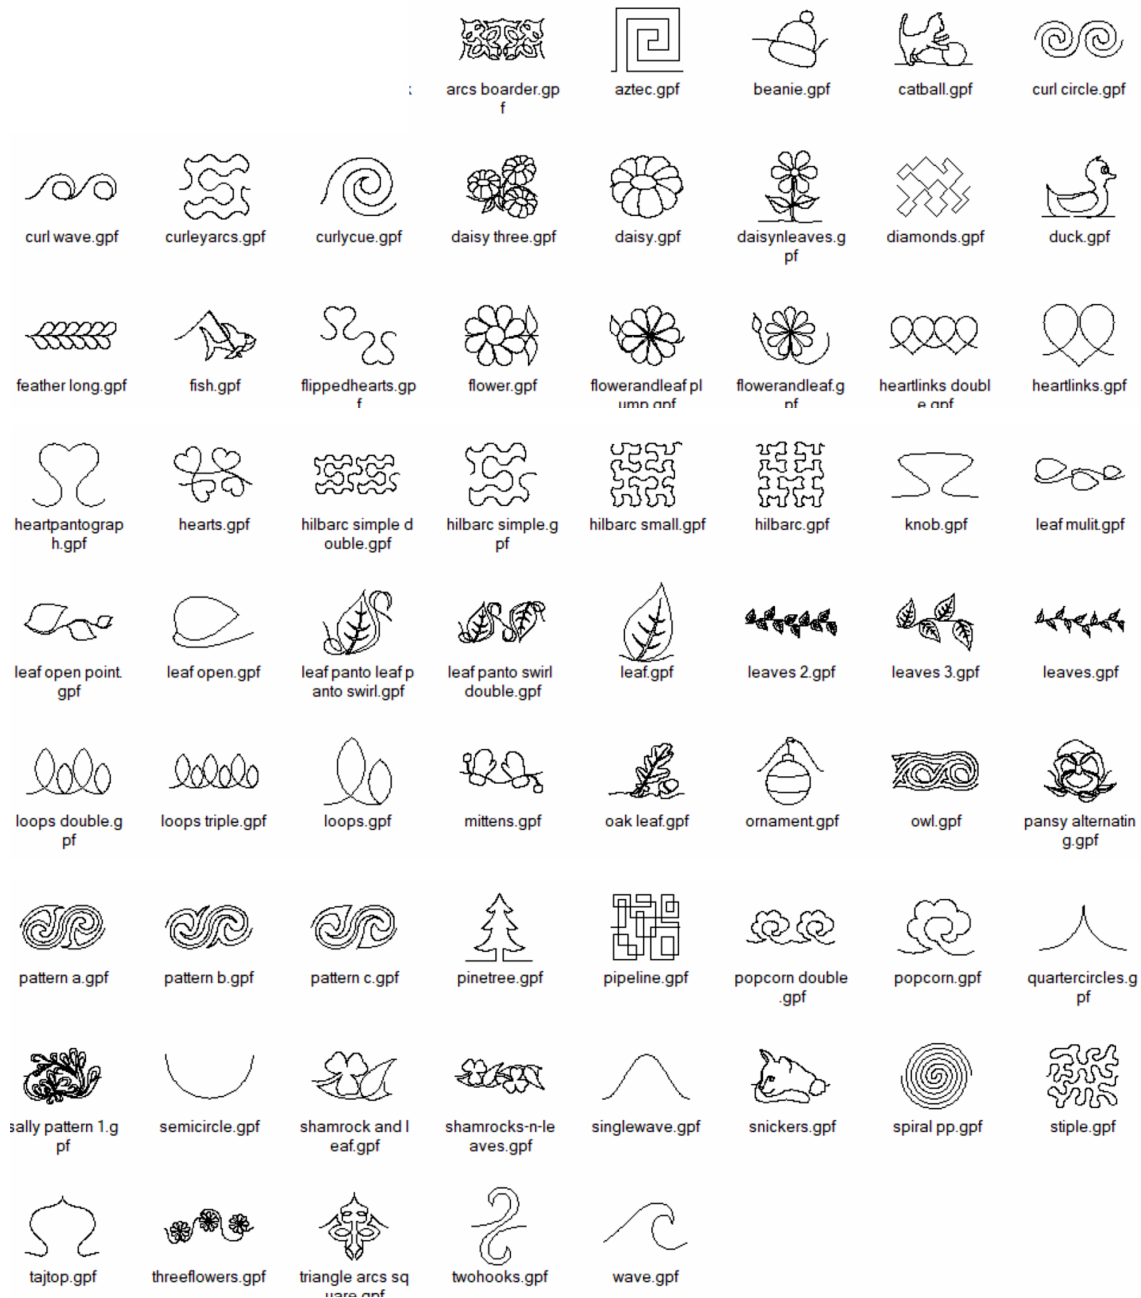

Individually Purchased Edge-to-Edge Designs

Reference details were verified against the current official product listings; purchase prices are intentionally omitted.
